

Vertical Drapes

Vertical Drapes are extremely versatile and practical blinds for all types of windows and sliding doors. They are the most economical blind for both home and office. Vertical Drape blades run vertically and can be rotated to control sunlight, glare and privacy. Since some light will filter through the blades they are not considered to be a full blackout blind.

Special features of our Vertical Drapes include:

- 2 blade widths: 127mm and 89mm
- Blades can be drawn to the left, right, each side or to the center
- Controls can be on either side
- Available with or without traditional bottom chain
- Fabrics range from translucent to blackout
- Can be chain or wand controlled
- All chain and cord controls are fitted with "Cord Safe" at a safety length of 500mm
