

Vertical Drape Care Guide

- Always open the blinds if windows and doors are open. A strong breeze could catch and damage the blind.
- Avoid exposure to wind or rain. Rain blown onto the blind might stain the fabric and these spots can be difficult to remove.
- To open the blinds, stand directly in front of the cords to ensure smooth operation.

CLEANING VERTICAL DRAPES

Dust with a soft brush or gently sponge clean with warm soapy water, leaving the blinds open to dry.

Spot clean any marks with a soft damp cloth, making sure the cloth is not too wet to guard against water marks.

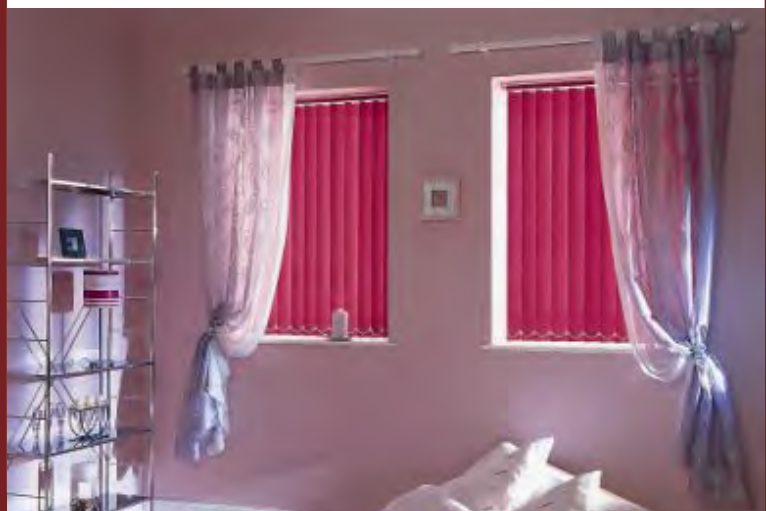

Do not spray window cleaner on or near the fabric.

Cleaning the blades in a washing machine is not recommended as it can fray, or damage the blades.

Vertical Drape

- Open the blind when the doors and windows are open to prevent damage
- Exposure to rain can cause staining
- Spot clean with a damp, soft cloth.
- Do not spray window cleaner on or near the blinds
- It is not recommended washing the blades in a washing machine as this can damage the blades.
