

Screen Enclosures

Enclosing your outdoor area gives you an economical option for added living space and year round comfort, allowing you to fully utilise the area without the worry of insects and unwanted pests.

Special features of our Screen Enclosures include:

- Choose your level of protection with a simple Flyscreen Enclosure, choosing from the standard fly screening to a heavier screening designed to resist domestic pets
- Upgrade to 7mm Diamond mesh for added security that would allow you to remove existing safety doors and grilles from the rooms within the enclosure for a more open look and feel
- Upgrade further to a Crimsafe enclosure for ultimate protection and full unimpeded view of the outdoors. Crimsafe panels are manufactured without any midrails for a clear view
- All enclosures are custom made and are assembled on site to ensure a seamless fit.
