

Venetians

Venetian Blinds are a traditional horizontal slat blind. Slats can be tilted up and down to control light and privacy. Blinds can also be raised or lowered, opening up the whole window when required.

Special features of our Aluminium Venetian Blinds include:

- Slats are available 25mm (slimline) wide
- Colours can be plain or bright
- Wand tilt and cord lift operation
- Hold down clips available

Special features of our Timberstyle Venetian Blinds include:

- Timberstyle venetians offer a warmer, more natural look than aluminium
- Water proof and heat resistant, suitable for high moisture areas like bathrooms and kitchens
- Available in 50mm and 63mm slat sizes
- Timberstyle pelmet which attaches to the headbox
- Cord tilt and lift operation
- Modern venetians are not designed to close as tightly as the old fashioned blinds, and do not appear to close completely
